Caution regarding forward-looking statements

Certain portions of this Semi-Annual Management Report of Fund Performance, including, but not limited to, "Recent Developments", may contain forward-looking statements about the BMG Gold BullionFund (the "BMG Fund") including statements with respect to strategies, risks, expected performance events and conditions. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as "could", "would", "forecasts", "expects", "anticipates", "intends", "plans", "believes", "estimates", "projects" and similar forward-looking expressions or negative versions thereof.

Forward-looking statements are not guarantees of future performance and actual results or events could differ materially from those expressed or implied in any forward-looking statements made by the BMG Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign currency rates, investment sentiment, volatility of precious metals prices, demand for various precious metals, and other factors affecting precious metals, currency fluctuations, global equity and capital markets, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above-mentioned list of important factors is not exhaustive. Some of these risks, uncertainties and other factors are described in the BMG Fund's simplified prospectus, under the heading "Risk Factors."

We encourage you to consider these and other factors carefully before making any investment decisions. Forward-looking statements should not be unduly relied upon. Further, you should be aware that the BMG Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance, and that the forward-looking statements speak only to the date of this Semi-Annual Management Report of Fund Performance.

This Semi-Annual Management Report of Fund Performance contains financial highlights, but does not contain either the complete semi-annual or annual financial statements of the BMG Fund. Security holders may request a copy of the BMG Fund's semi-annual or annual financial statements, proxy voting policies and procedures, proxy voting disclosure record or quarterly portfolio disclosure at no cost by calling 1.888.474.1001, by writing to us at 280-60 Renfrew Drive, Markham, Ontario, L3R 0E1, or by visiting our website at www.bmgbullion.com or SEDAR at www.sedar.com.

MANAGEMENT REPORT OF FUND PERFORMANCE

Investment Objective and Strategies

BMG Gold Bullion Fund (the “BMG Fund”) invests in unencumbered, fully allocated physical gold that is held by the Bank of Nova Scotia. The BMG Fund’s objective is to provide a secure, convenient, medium-risk method for investors seeking to hold gold bullion for capital preservation, long-term appreciation, portfolio diversification and portfolio hedging purposes.

All physical bullion purchased by the BMG Fund meets the “London Good Delivery” standard as set out by the London Bullion Market Association (LBMA).

The economic factors that determine the price of gold are, in most cases, opposed to the factors that determine the prices of most other financial assets. Ownership of BMG Fund units, therefore, acts as a hedge against the volatility of other investments. Units of a class of the BMG Fund are not speculative, and are only intended to be one part of an investment strategy.

A small portion of the BMG Fund's assets (generally no more than 5%) may be held in cash to allow the BMG Fund to pay its expenses, and to facilitate any redemption of units of a class of the BMG Fund. The BMG Fund will not use derivatives or invest in securities or certificates of companies that produce gold bullion. The BMG Fund will not invest in foreign securities, and it does not hedge its holdings. The value of the BMG Fund, therefore, is purely a function of the spot price of gold bullion. The BMG Fund’s objectives and strategies did not change in the first six months of 2015.

Risk

The risks associated with investing in the BMG Fund remain as stated in the simplified prospectus dated September 5, 2014. The principal risk associated with investing in the BMG Fund is the fluctuating price of gold, as well as fluctuations in the relationship between the Canadian and US dollars. In addition, the BMG Fund will be subject to precious metals risk, non-hedging strategy risk and specialization risk. Our view of the BMG Fund’s risk rating was unchanged in the first six months of 2015.

Results of Operations

All monetary amounts are expressed in Canadian dollars, unless otherwise indicated.

During the first six months of 2015, the net asset value (“NAV”) of the BMG Fund increased 2.4% from \$103.2 million at December 31, 2014 to \$105.6 million at June 30, 2015. The increase was primarily driven by \$5.3 million realized and unrealized gains on investments, offset by \$1.3 million in net redemptions and \$1.6 million in total expenses. As at June 30, 2015, the BMG Fund’s gold holdings were 71,952 ounces, compared to 73,623 ounces at December 31, 2014.

For the six months ended June 30, 2015, the NAV per unit of the BMG Fund’s Class A units increased by 3.6% in Canadian dollars, and declined by 3.9% in US dollars, while the NAV per unit of the BMG Fund’s Class F units increased by 4.1% in Canadian dollars, and declined by 3.4% in US dollars. There was a gain in Canadian dollars but a loss in US dollars because the Canadian dollar depreciated 7.2% against the US dollar in the first six months of 2015.

Gold’s 2014 year-end price was US\$1,199.25. This year, 2015, had a promising start as the LBMA Gold Price PM increased by 8.0% to reach a high of US\$1,295.75 per ounce in January. The price declined thereafter, falling to a low of US\$1,147.25 per ounce in March, and closed at \$1,171.00 on June 30.

Daily average net assets decreased from \$118.0 million during the first six months of 2014 to \$109.1 million for the same period in 2015. This represents a 7.5% decrease, which is in line with the decrease in total expenses after absorption of \$26,648 by Bullion Management Services Inc. (the “Manager”). The decrease is primarily driven by net redemptions and the performance of gold bullion as discussed in the “Recent Developments” section of this report.

MANAGEMENT REPORT OF FUND PERFORMANCE (*continued*)

A number of global economic events that were evident at the close of 2014 continued to weigh heavily on the markets during the first half of 2015. Wrangling over Greece's debt crisis, a slowdown in the Chinese economy, and the timing of the potential US Federal Reserve interest rate increase all contributed to market uncertainty. Additionally, the past year's dramatic rise of more than 100% in key Chinese equity markets has been a cause for concern. The correction that started in June 2015 prompted the Chinese government to take several measures to calm markets and ease the stock market slide. These events have failed to trigger any major upward movement in the price of bullion, and there has been no sustained breakout pattern.

Recent Developments

Gold started the year at US\$1,199.25, and closed on June 30, 2015 at US\$1,171.00, a 2.4% decline. In Canadian dollars, the gold price experienced a gain of 5.2% over the same period, because of a weakening of the currency against the US dollar.

As India and China wrestle for first and second place as the world's largest gold consumer, India eased gold import regulations towards the end of 2014 by removing its requirement for importers to sell 20% of their shipments to jewelers for re-export as jewelry. While this should have been positive news for gold, India's decision to maintain an import duty on the precious metal continues to dampen demand. Although there has been some correction recently, China's strong equity market proved more attractive to investors than gold. It is unclear whether a correction will lead Chinese investors back to gold as an alternative asset class or as a safe haven investment.

Related-Party Transactions

Manager and Trustee

Bullion Management Services Inc. is the manager, trustee, registrar and transfer agent for the BMG Fund. The Manager provides, or arranges for the provision of, all management and administrative services for day-to-day operations, including providing fund and unitholder accounting, recordkeeping and other administrative services. At June 30, 2015, the Manager held 51,062 Class A units of the BMG Fund.

In consideration of the management and administrative services, the BMG Fund pays the Manager a monthly management fee based on the NAV of the various classes of units of the BMG Fund, calculated daily. For the six months ended June 30, 2015, the BMG Fund incurred management fees of \$1,139,213.

Distributor

Bullion Marketing Services Inc., an affiliate of the Manager, has been retained by the Manager to assist with the marketing and distribution of units of the BMG Fund in the exempt market pursuant to prospectus exemptions.

Operating Expenses

For the six months ended June 30, 2015, the Manager absorbed Fund operating expenses of \$26,648. The decision to reduce operating expenses is made at the discretion of the Manager, and may be changed at any time.

Independent Review Committee

The Manager has created an independent review committee ("IRC") to review and provide impartial judgment on conflict of interest matters. The IRC reviews potential conflicts of interest referred to it by the Manager, and makes recommendations on whether a course of action is fair and reasonable for the BMG Fund. The IRC prepares an annual report of its activities for interested parties. A copy of the IRC's report for 2014 is available at www.bmgbullion.com.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about each class of units of the BMG Fund, and are intended to help you understand the BMG Fund's financial performance for the past six months ended June 30, 2015, and the years shown ended December 31, and/or from the period since the particular class was first offered. The information is derived from the BMG Fund's financial statements.

FINANCIAL HIGHLIGHTS *(continued)*

Explanatory Notes to Financial Highlights

Fund's Net Assets per Unit of each Class

(1) This information is derived from the BMG Fund's financial statements. In the period a BMG Fund or class is established, the financial information is provided from the date a particular class was first offered to the end of the period. Information for 2013 and subsequent years is in accordance with IFRS. Information for years prior to 2013 is reported under Canadian GAAP. The NAV per class presented in the financial statements does not differ from the NAV per class calculated for fund pricing purposes.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) in net assets from operations is based on the weighted average number of units outstanding over the fiscal period. This table is not intended to be a reconciliation of opening and closing net assets per unit.

(3) The BMG Fund did not make any distributions.

Ratios and Supplemental Data

(1) This information is provided as at the end of the period shown.

(2) The management expense ratio is based on total expenses for the stated period, and is expressed as an annualized percentage of daily average NAV during the period.

(3) The trading expense ratio represents the total commissions and other portfolio transaction costs expressed as an annualized percentage of NAV during the period.

(4) The BMG Fund's portfolio turnover rate indicates how actively the BMG Fund's gold bullion investments are traded. A portfolio turnover rate of 100% is equivalent to the BMG Fund buying and selling all its gold bullion once in the course of the relevant period. There is no trading cost payable by the BMG Fund. The higher a portfolio turnover rate in a year, the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the BMG Fund.

Management Fees

Management fees are paid by each class of the BMG Fund to the manager, and are calculated at the applicable annual percentage of the NAV of each class of the BMG Fund. A portion of the management fees paid by the BMG Fund is for trailer fees paid to dealers. The trailer fees are a percentage of the daily average NAV of the applicable class of units of the BMG Fund that are held by the dealers' clients. No trailer fees are paid with respect to Class C3, Class F or Class S1 units of the BMG Fund. The table below outlines the BMG Fund's annual management fees for Class A, Class B3, Class C3, Class F, Class S1 and Class S2 units, and how those fees are split between trailer fees and portfolio administration.

	Class A	Class B3	Class C3	Class F	Class S1	Class S2
Management Fee	2.25%	1.25%	0.75%	1.25%	0.45%	0.95%
Portfolio Administration Fee	55.6%	60%	100%	100%	100%	47.4%
Trailer Fee <i>(maximum rate as a percentage of management fees)</i>	44.4%	40%	0%	0%	0%	52.6%

Out of the management fees that the Manager received from the BMG Fund, the Manager paid trailer fees of \$465,949 during the six months ended June 30, 2015.

PAST PERFORMANCE

The following information does not take into account sales or redemption charges that would have reduced returns. Past performance does not necessarily indicate how the BMG Fund will perform in the future.

Class B3 units have been offered for less than 12 months, therefore performance is not available for disclosure for this class.

Year-by-Year Returns

The following bar charts show the BMG Fund's performance for each class of units of the BMG Fund in Canadian and US dollars, as applicable, in each of the years shown and for the six months ended June 30, 2015. They illustrate how the BMG Fund's performance has changed from year to year. In percentage terms, the charts show how much an investment made on the first day of each financial year has increased or decreased by the last day of each financial period.

Class A

The return shown for 2009 is for the period from September 4, 2009, the date the Class A units were first offered.

Class C3

The return shown for 2014 is for the period from March 12, 2014, the date the Class C3 units were first offered.

PAST PERFORMANCE (continued)

Class F

The return shown for 2010 is for the period from January 18, 2010, the date the Class F units were first offered.

Class S1

Class S2

The return shown for 2010 is for the period from November 9, 2010, the date the Class S1 and Class S2 units were first offered.
